

Section: Create Campaign

Module : Setup Campaign for health and educational facilities

Setup campaign for health and educational facilities

"In this module we show you how to setup new campaign using specific types and tags for collecting wanted data."

The screenshot shows a web interface for setting up a campaign. It has two main sections: 'Types' and 'Tags'. The 'Types' section has two dropdown menus, one currently showing 'education-facilities' and the other 'health-facilities'. The 'Tags' section is a grid of input fields for various attributes, each with a red 'x' icon to its left. The first row contains 'name', 'amenity', 'isced:level', and 'capacity', followed by a '+ Add tag' button and a '-' button. The second row contains 'name', 'amenity', 'medical_system:western', 'operator', and 'health_facility:bed', followed by a '-' button. The third row contains 'health_facility:level', 'health_facility:type', 'emergency', 'operator:type', and 'contact:phone'. The fourth row contains 'addr:full', 'opening_hours', 'status', 'staff_count:doctors', and 'staff_count:nurses'. The fifth row contains 'source' and a '+ Add tag' button.

Types and tags is needed to specified what data that will be overviewed on campaign. Types is for feature of data that needs collected and tags is what attribute that needs to be overviewed.

You try:

Goal: Set up campaign for health and educational facilities.

* Login to field campaigner and go to "Create New Campaign" in top navigation.

* Fill general information for new campaign. On types section for now just add types health and educational facilities.

* On Campaign AOI, let's try find your hometown by clicking magnifying glass icon on the map and search your hometown and draw polygon.

* Don't forget to submit your changes if you are satisfied.

Check your results:

- ✓ - Go to detail of campaign. Could you see "education-facilities" and "health-facilities" tab on the left of map?
- ✓ - Click on graph icon on the right of "health-facilities", could you see data on the map and also on the overview below it?

Name	Value
Area of Interest	Data of health and educational.
Type	<div>Types</div> <div>education-facilities</div> <div>health-facilities</div>
Draw	The campaign AOI, finish your polygon by clicking again on your start point.
Validate	Validate with looking tick for each tab. <div><div>General Information</div><div>Campaign AOI</div></div>
Submit	Submit changes with <div>Submit</div>

More about

Types is used to determine what type of output data is needed for a campaign. Tags is used to overview attribute data. If data that is collected doesn't have tags that we determined in types/tag input, it will show errors on Attribute Completeness Errors on the detail campaign.

Check your knowledge:

1. Mark all the correct statements:

- a) When we select new type, the tags that are generated are default ones.
- b) By clicking  on tags, it will tell that I don't need this tag to be checked on this campaign.
- c) I can add as many types as I want.

2. I want to check cafes around my hometown that should be easy to find in detail. What should I do?

- a) Create a campaign that has an AOI around my town. Add new type "cafe".
- b) Create a campaign that has an AOI around my town. Add new type "cafe" and delete other tags than "name".
- c) Create a campaign. Add new type "cafe".
